

Avanti Glass and Aluminium offers a product warranty for a period of six (6) years from the date of delivery and installation. The extent of the warranty is limited to defects arising from faulty workmanship and materials.

The warranty does not cover defects to:

- products that have been subjected to misuse, abuse or neglect
- products in areas subject to corrosion, including swimming pool areas
- products changed or tampered with without prior written consent by Avanti Glass
- products subject to abnormal conditions and/or environments, including fire, water, pressure, stress
- products with colour or shade variations to the powdercoated or anodised aluminium (unless present during installation)

The warranty does not include liability for:

- glass breakages, including thermal cracking, or scratched glass unless caused by faulty workmanship or materials
- damage to the product as a result of cleaning agents

Retractable flyscreens have a five (5) year warranty on hardware and a one (1) year warranty on the flyscreen mesh.

Avanti Glass and Aluminium will inspect all warranty claims, and will charge accordingly for any repairs or replacements that fall outside the warranty period and/or conditions.

### **Care Instructions**

Aluminium frames should be wiped down regularly without the use of harsh or abrasive cleaning agents and products.

Lubricant spray, such as WD40, should be used regularly on the internals of hardware, including locks, hinges and winders, to ensure smooth operation.

Tracks should be kept free of dirt and grit to ensure sashes slide smoothly and weep holes unobstructed to allow maximum drainage and leak prevention.

Care instructions for glass will vary depending on glass type. Please contact Avanti Glass for specific instructions.
